Dear Sir or Madam

Refused Approach Local Plan - Highgrove

I am writing to object to the land at Highgrove Farm Bosham being used for further housing development.

This is a huge overload to the village, with real concerns for flooding, sewage and traffic. It would increase the build-up between villages - what is happening to the strategic gap policy? Wild-life corridors, the environment, the setting of our village would be seriously compromised.

Of course we must help

with new housing. The village has
already stated its preference for
smaller blocks of housing
built in existing gaps - something
that was refused on AORB grounds,
while allowed elsewhere.

The integrity of our community
and the ability to absorb new
residents satisfactorily is of
crucial importance.

Please look at the
alternatives to Highgrove.

Yours faithfully

Ms. C. L. YOUNGER
