### **Biodiversity and Strategic Wildlife Corridors : Policy S30 and DM 29**

These policies S30 and DM29 are intended to protect and enhance biodiversity.

The policy includes the concept of strategic wildlife corridors that are intended to protect biodiversity and provide protected routes along which wildlife can easily move. These corridors tend to link the coast with the South Downs and there is one which comes directly through the Westbourne broadly following the line of the River Ems.

We welcome the concept of these wildlife corridors which will not only assist in preventing unsuitable dense development, lacking in open space but will also actively promote the protection of species such as birds and bats that are a feature of local biodiversity in the village and need protected habitats and quality open space to pass through.

This is an innovative Policy which we very much endorse and support. These corridors are valuable open spaces which fit beautifully with the Character of the West Sussex villages like Westbourne. As it roughly follows the route of the river Ems it is in an area considered unsuitable for development in any case due to potential flooding but it will protect the Bio-diverse area it serves.

What improvements or changes would you suggest?

Westbourne Parish Council will support CDC in their Policy of these Corridors and should commend CDC for taking them into consideration.  
There has obviously a lot of thought and work gone into developing these strategic routes thank-you

(Continue on separate sheet if necessary)

### Declaration

I understand that any comments submitted will be considered by Chichester District Council in line with this consultation and will be made publicly available on their website [www.chichester.gov.uk](http://www.chichester.gov.uk) and may be identifiable by my name or organisation, if provided.
