Local schools including Mundham, Sidlesham and the free school are full. Since the catchment areas are wide, children living may not be able to get places and have to travel far. This would create yet more traffic and air pollution in or local area. (Continue on separate sheet if necessary)

What improvements or changes would you suggest?
Identify other sites more suitable which have a greater accessibility of schools for families. (Continue on separate sheet if necessary)

The proposal of houses would increase the population size dramatically (35%). This would change a rural village into a part/sub-section of Chichester and lose it's identity as well as crucial land used to harvest crops.

(Continue on separate sheet if necessary)

What improvements or changes would you suggest?

It is unacceptable to have this many new houses compared to Mardham (50 houses) so many some of the proposed houses to there and create a more even spread would be fairer.

(Continue on separate sheet if necessary)

The A27 is almost always gridlocked, creating problems down the B2145, one of the busiest B-roads in the county. The new housing would create pandemonium at the roundabout north of Hunston, where every single new car would have to pass when driving to/from home. (Continue on separate sheet if necessary)

What improvements or changes would you suggest?
Identify other locations to put housing to prevent this build up of traffic developing to a unbelievable scale (Continue on separate sheet if necessary)

Without any GP surgeries in the local area, all residents in Hunston use surgeries in Chichester. It seems ~~incomprehensible~~ incomprehensible that 200 new families can register there too, creating a huge issue where medical care is required.

(Continue on separate sheet if necessary)

What improvements or changes would you suggest?

Build less houses in Hunston so that GPs don't get overwhelmed by the population and are unable to function.

(Continue on separate sheet if necessary)
