3. To which part of the Local Plan does this representation relate?

Paragraph P28.12 Policy T1 Policies Map

4. Do you consider the Local Plan is:

4.(1) Legally compliant	Yes	<input type="checkbox"/>	No	<input type="checkbox"/>
4.(2) Sound	Yes	<input type="checkbox"/>	No	<input checked="" type="checkbox"/>
4 (3) Complies with the Duty to co-operate	Yes	<input type="checkbox"/>	No	<input type="checkbox"/>

Please tick as appropriate

5. Please give details of why you consider the Local Plan is not legally compliant or is unsound or fails to comply with the duty to co-operate. Please be as precise as possible. If you wish to support the legal compliance or soundness of the Local Plan or its compliance with the duty to co-operate, please also use this box to set out your comments.

I consider this policy not to be sound.

- The A27, its junctions and surrounding/connecting roads are already congested and will become more so with the proposed increase in the population and hence car owners/users
- The plan gives no defined or confirmed road infrastructure development nor funding/investment to enable action to reduce the detrimental impact of the proposed massive increase in populus in Tangmere and its surrounding area
- To 'monitor and manage' is not appropriate to deal with the predicted issue of road congestion
- Air pollution and noise pollution will increase
- Tangmere is the largest planned high order settlement hub (13% of total local plan housing - see P284 housing trajectory) and has no close proximity railway station unlike proposed developments at Southbourne, Nutham and Fishbourne.

(Continue on a separate sheet /expand box if necessary)

6. Please set out the modification(s) you consider necessary to make the Local Plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified at 5 above. (Please note that non-compliance with the duty to co-operate

is incapable of modification at examination). You will need to say why each modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

To make this policy more sound, the 'Monitor and Manage' strategy needs to be removed and become 'Predict and Provide', the emphasis being on the 'Provide' being secured, which would assist in easing the predicted road congestion issues. A railway station needs to be developed and built for the Tangmere area to improve easy access to rail travel for the increased population and thus encourage alternative travel usage.

Please note In your representation you should provide succinctly all the evidence and supporting information necessary to support your representation and your suggested modification(s). You should not assume that you will have a further opportunity to make submissions.

After this stage, further submissions may only be made if invited by the Inspector, based on the matters and issues he or she identifies for examination.

7. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?

☐

No, I do not wish to participate in hearing session(s)

☒

Yes, I wish to participate in hearing session(s)

Please note that while this will provide an initial indication of your wish to participate in hearing sessions(s), you may be asked at a later point to confirm your request to participate.

8. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary:

These matters are very important to me and I wish to be involved and have my voice heard

Please note the Inspector will determine the most appropriate procedure to adopt to hear those who have indicated that they wish to participate in hearing session(s). You may be asked to confirm your wish to participate when the Inspector has identified the matters and issues for examination.

- To reduce the massive number of proposed new housing units to be built in and around the Tanymore area where there are already severe known traffic congestion issues particularly at junctions and roundabouts that feed in and out and around Chichester and its surrounds.
