3. To which part of the Local Plan does this representation relate?

Paragraph 10.59 Policy Policies Map

4. Do you consider the Local Plan is:

4.(1) Legally compliant	Yes	<input type="checkbox"/>	No	<input type="checkbox"/>
4.(2) Sound	Yes	<input type="checkbox"/>	No	<input checked="" type="checkbox"/>
4 (3) Complies with the Duty to co-operate	Yes	<input type="checkbox"/>	No	<input type="checkbox"/>

Please tick as appropriate

5. Please give details of why you consider the Local Plan is not legally compliant or is unsound or fails to comply with the duty to co-operate. Please be as precise as possible. If you wish to support the legal compliance or soundness of the Local Plan or its compliance with the duty to co-operate, please also use this box to set out your comments.

The plan is not sound because the increased traffic and number of cars using Tangmere Road will impact on the dangers of the T junction at Tangmere Road ^{and Church Lane.} There are already incidents at this junction + the sheer volume of traffic is likely to increase the number of incidents/accidents at this junction. (The volume of traffic in relation to the proposed 1300 houses given that each house is likely to have at least one car owner (conservative estimate) will impact on the dangers posed by the T junction to road users. The visibility is extremely poor at this T junction (Church Lane and Tangmere Road).

(Continue on a separate sheet /expand box if necessary)

6. Please set out the modification(s) you consider necessary to make the Local Plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified at 5 above. (Please note that non-compliance with the duty to co-operate

is incapable of modification at examination). You will need to say why each modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

Road ~~Safety~~ Safety around T-junction needs to be properly surveyed for traffic/road usage to improve the visibility around it to minimise the potential for an increase in accidents as a direct result of increased traffic and road use. The sheer density of traffic from the development means that improved visibility and road safety around it is paramount. A detailed analysis survey needs to be done to assess how best to improve road safety at this junction for all road users (drivers, pedestrians, cyclists etc.)

(Continue on a separate sheet / expand box if necessary)

Please note in your representation you should provide succinctly all the evidence and supporting information necessary to support your representation and your suggested modification(s). You should not assume that you will have a further opportunity to make submissions.

After this stage, further submissions may only be made if invited by the Inspector, based on the matters and issues he or she identifies for examination.

7. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?

No, I do not wish to participate in hearing session(s)

Yes, I wish to participate in hearing session(s)

Please note that while this will provide an initial indication of your wish to participate in hearing sessions(s), you may be asked at a later point to confirm your request to participate.

8. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary:

Please note the Inspector will determine the most appropriate procedure to adopt to hear those who have indicated that they wish to participate in hearing session(s). You may be asked to confirm your wish to participate when the Inspector has identified the matters and issues for examination.
